IMPORTANT.

AUTOMATIC EXCHANGES.—See page 4 for instructions showing how to operate Automatic Telephones.

OUT-OF-DATE DIRECTORIES.—Be sure you obtain an up-to-date copy of the directory. Out-of-date copies should be discarded.

To call Trunk Lines, ring A01.

DIRECTIONS FOR OPERATING AUTOMATIC TELEPHONES.

TO CALL A SUBSCRIBER CONNECTED TO AN AUTOMATIC EXCHANGE

- (i.) Ascertain the correct number.
- (ii.) Remove the receiver from the hook.
- (iii.) **How to dial.**—Assuming the number is A 1234, place the first finger in the hole over the letter "A" and pull the dial to the right until the finger strikes the finger post. Remove the finger smartly and allow the dial to return to rest. Proceed, in the same way, with the figures 1-2-3-4, in the order they appear in the number. When this has been done your line is connected with A 1234 (unless the number is

already engaged) and the bell on that line will ring at intervals. If the line is engaged a loud "buzz" signal will be heard, and if all the apparatus to a group of numbers is in use or all junction lines to an Exchange are engaged, a succession of "clicks" will be heard. In these cases hang up the receiver and call again a little later. If you are connected to a wrong number, or are cut off during conversation, advise the Exchange by ringing "Information" (see below), so that the call will not be charged for.

TO CALL A SUBSCRIBER CONNECTED TO A MANUAL EXCHANGE

- (i.) Dial the letter denoting the required Exchange as shown hereunder:—

Exchange—	Call Letter	Exchange—	Call Letter
Cannington	W	Maddington	W
Cottesloe	F	Midland Junction	L
Fremantle	B	South Perth	U
Guildford	M		

To call subscribers connected to Maddington Exchange, dial the letter "W" and ask for subscriber required.

- (ii.) The telephonist at the called Exchange will reply, "Number please."
- (iii.) Give the telephonist the number required, e.g., "Guildford 78," and she will connect you to that number.
- (iv.) If you are connected to a wrong number or are cut off during conversation, advise the telephonist, so that the call will not be charged against you.

INFORMATION AND COMPLAINTS

If you desire information or wish to make a complaint or to report a difficulty in the service, call A 09.

These calls are free.

CAUTIONS

- Remove the receiver from the hook before operating the dial.
- Do not "jiggle" the hook when lifting the receiver.
- Do not omit the call letter when dialling the number required.
- Do not move the hook or dial when talking, as this will disconnect the circuit.
- If, in making a call from an automatic telephone, you make any wrong movements of the dial or hook, hold down the hook for a few seconds and then dial again.
- Do not force the dial back. Remove your finger and allow the dial to return to normal.
- Always wait a reasonable time for an answer.
- Hang up the receiver for a few seconds before making a second call.
- You can test your instrument and line with reasonable certainty by calling your own number. If the line is in order you will hear the engaged "buzz."
- If disconnected, replace the receiver on the hook and wait for the caller to ring again.
- Hang up the receiver LARGE END DOWN. While your receiver is off the hook you cannot be called.

HOW TO USE THE TELEPHONE SERVICE.

There are three parties to a telephone call:—

YOURSELF THE EXCHANGE THE DISTANT SUBSCRIBER

A successful telephone call is the result of the co-operation of these three, and cannot be obtained without that co-operation. It is not enough for the Exchange alone to do its work correctly. All three parties must work in harmony. For these reasons your attention to the following suggestions is earnestly invited.

GENERAL RULES

- Make sure of the correct number before calling.** Otherwise confusion and delay are likely to occur.
- Speak clearly and directly into the transmitter.** The lips should be close to the mouthpiece—almost touching it. If you speak clearly it is rarely necessary to speak loudly.
- Answer promptly when called and announce your name or number.** Promptitude is essential, because you will be rung for a limited period only, and the calling subscriber may become tired of waiting.
- When conversation is finished replace the receiver, and if a ringing handle is provided turn it several times.** Neglect to do so may result in serious inconvenience both to yourself and to the Exchange.
- Do not replace the receiver when it is necessary to leave the telephone before the conversation is finished or you may be disconnected.**
- If you are disconnected after being called hang up the receiver so that the caller may ring again.** Otherwise you both may obtain the engaged signal.
- If you wish to complain ask for "Complaints" at the time the trouble occurs and report the details of the difficulty.** It is much easier to trace the cause of a complaint when it is reported promptly.

PRONUNCIATION OF NUMBERS

The distinctive sounds of consonants become blurred in the transmission of speech by telephone, and words containing the same vowels are apt to sound alike. Greater care is, therefore, necessary in speaking by telephone than is required in ordinary speech if mistakes are to be avoided. The following are some useful precautions:—

- Pronounce 0 as "OH," with long "O."
- " 1 " "WUN," emphasising "N."
- " 2 " "TOO," emphasising "T," and with long "OO."
- " 3 " "TH-R-REE," with slightly rolling "R" and with long "E."

- Pronounce 4 as "FORE," emphasising "R."
- " 5 " "FIVE," emphasising "I."
- " 6 " "SIX," with long "X."
- " 7 " "SEV-EN"—two syllables.
- " 8 " "ATE," with long "A," and emphasising "T."
- " 9 " "NINE," one syllable, with long "I" and emphasising "N."

The observance of these simple rules and a little more deliberation than is necessary in ordinary speech will reduce "wrong number" troubles.

WHAT TO DO WHEN ORIGINATING A CALL.

(Manual Exchanges)

- Have the required number ready before calling the Exchange, and pass it promptly and clearly (Exchange name first, e.g., "Cottesloe 1234") directly after the telephonist has answered "Number, please."** The number will be repeated by the telephonist. Correct her if the repetition is inaccurate.
- If the distant subscriber does not, as he should do, announce his identity on answering, say: "Is that? (giving Exchange and number)."** If the reply is in the affirmative, announce your own identity, as in this example: If a private house, "Mr. John Smith speaking." If a business house, "Smith and Co. speaking."
- If the line of the distant subscriber is in use, or if no reply from him has been received at the end of period allowed for ringing, the telephonist will say, e.g., "Cottesloe 1234 engaged," or "Cottesloe 1234 does not answer," as the case may be.** If you wish the telephonist to make further attempts to complete an engaged call, say, "Please call me when the line is disengaged;" replace your receiver and wait for the telephonist to again ring you. In the case of "Does not answer" calls, the Exchange will call the wanted party at intervals, and if he can be obtained later will advise you.
- After replacing your receiver at the end of conversation wait about 20 seconds before removing it to make another call.**
- For information as to subscribers' numbers, etc., ask the Exchange for "Information."**
- For information as to trunk line calls ask the Exchange for "Trunk Lines."**

TO ANSWER A CALL FROM ANOTHER SUBSCRIBER

Answer promptly.

Announce your identity at once on these lines—

If a private house, e.g.—

“Fremantle 764 speaking.”

If a business house, e.g.—

(a) “Smith and Co.,” or

(b) “Smith & Co., Mr. John Smith speaking.”

If it is necessary to refer the caller to some other person in your establishment, inform the latter of the name of the caller, and, if possible, his business.

Endeavour to save callers the trouble and annoyance of repeating particulars to various individuals.

HOW TO AVOID THE RISK OF OVERCHARGES

You may assist in the prevention of errors in charges for calls in the following ways:—

Wrong Connections.—If you are connected with the wrong subscriber, you should advise the telephonist when you ask again for the required number. Otherwise she may not know that a mistake has occurred.

Cut-Offs.—If you make a call and are cut off during conversation, inform the telephonist of the fact,

and ask for re-connection with the number required. If the call has been made to you by another subscriber let him ask for the reconnection.

Delayed or “No-reply” Calls.—If the called party does not answer and you cannot wait, do not abandon the call without telling the telephonist. Otherwise she may think that a conversation has taken place and charge for the call.

HOW TO MAKE A TRUNK CALL

Subscribers Connected to Perth Automatic Exchange—

Call A01. When the Trunk Line Officer replies, give her your number and the Exchange and subscriber's number required, thus: **Central 1234** (calling number) **wants Northam 987** (required Exchange and Number). The Trunk Line Officer, after verifying particulars of call will say, “Will call you when line is available.” She will also advise you of the approximate delay anticipated before connection can be given. Replace your receiver and wait for the ring.

Subscribers connected to Suburban Exchanges:

Call the Exchange and when the telephonist responds, ask for Trunk Lines. Connection will then be made to the Trunk Exchange, and the telephonist will answer “Trunk Lines.” Give her the particulars of your number and the required Exchange and number as described above for the information of subscribers connected to the Perth Automatic Exchange, and your call will be attended to in a similar manner.

General.

You may ask for a particular person when making a trunk line call, in which case the telephonist will obtain the person asked for, or, if he is not available, will advise you to that effect. An additional charge of 3d. is made for this service whether the call is effective or not.

When a particular person is desired, you should, when booking the call, give the particulars in the following form, e.g.—

“Central 1234 wants Northam 987, Mr. Smith.”

When the called party at the distant station is available the telephonist will call you and make the necessary connection.

In cases where a particular person is not asked for when booking the call, no allowance is made for the time lost in bringing the individual to the telephone.

The charge for a trunk line call accrues from the moment that communication is established between the calling and the called subscribers, i.e., when both subscribers telephones have been answered and the telephonist has made the connection by stating “There is the number.”

Three minutes' conversation is allowed for a single fee, but the telephonist will offer an extension of time at the end of each successive three minutes. No trunk line call can, however, be extended beyond six minutes if the line is required for other calls.

Delay on trunk calls is unavoidable at times, especially between 9 a.m. and 12 noon, when pressure of work is greatest. You will obtain communication with less delay if you make your calls, so far as you conveniently can, at other times of the day.

For all information concerning trunk line calls, and particulars of subscribers connected to country Exchanges, ask for “Trunk Lines.”

In order to permit of the trunk lines being used to their fullest capacity, you should answer your telephone promptly and disconnect as soon as the conversation is finished.

HOW TO MAKE A FIXED TIME TRUNK CALL

Facilities are offered to telephone subscribers for booking trunk calls to be effected at or about a specified time for a period of not less than six consecutive days, excluding Sundays and holidays.

One call per day per trunk line may be booked when not less than two trunk line calls are made, or paid for if not made, daily between the same two towns during the period for which the arrangement is required. The number of advance booked calls per trunk line between any two towns must not exceed two daily.

The Department accepts no liability for failure to complete a fixed time call at or about the time arranged, nor does it undertake to obtain the attendance of any particular person.

Applications for this facility should be made in writing to the Telephone Manager, General Post Office, who will furnish applicants with full information regarding the conditions.

HOW TO DICTATE A TELEGRAM

Call the Exchange and when the telephonist answers, say "Telegrams." The call will then be put through to the Telegraph Office, and the operator will reply "Telegrams." Tell her your Exchange and number, and then dictate your telegram. When you have com-

pleted the message, the operator will repeat it to you to ensure its accuracy. Difficult or unusual words will be confirmed by spelling them. When it is necessary to identify each or any letter of a word, it will be verified by analogy, thus: A for Albert, B for Bob, etc.

TRAINING OF PRIVATE BRANCH EXCHANGE TELEPHONISTS

Subscribers renting switchboards from the Department will find that the efficiency of the service they receive will be materially increased if their switchboard attendants are trained in telephone operating. On application to the Telephone Manager arrangements can

be made for such training free of charge. Instructions regarding operating procedure at Private Branch Exchanges may also be obtained from the Telephone Manager.

COUNTRY EXCHANGES

Country Exchanges having Commercial speech with Perth and Exchanges in the Metropolitan Network are shown on pages 87-138.

For Subscribers' numbers, which do not appear in this Directory, or for Trunk Line charges to any Country Exchange, ring "Trunk Lines," A01. The call will not be charged for.

INFORMATION ABOUT THE TELEPHONE SERVICE

RATES

Exchange Lines—

The annual rental for an **Exclusive Service** to any Telephone Exchange within a radius of 10 miles of the General Post Office, Perth, is £5, where the length of the line is not more than 2 miles radially from the Exchange. If the distance exceeds 2 miles a charge of 10/- per annum is made for each additional quarter of a mile or portion thereof.

For a **two-party service** the annual rental for each subscriber or instrument connected is £3/15/- up to a distance of 2 miles, and 5/- for each additional quarter of a mile.

The rentals for services connected to Country Exchanges are lower, and they vary according to the number of subscribers with whom a subscriber may converse without payment of trunk line fees. Details of the charges are shown in the Country Directories, and information may also be obtained from the local Postmaster.

The distance to which the Department will erect any line in a country district depends upon the circum-

stances of each case, such as the number of applicants to be served and the facilities already available.

Special Facilities—

Special facilities, such as **Private Branch Exchanges, Private Circuits, Extensions to Exchange Services, Fire Brigade lines, and Burglar Alarm Circuits** are provided, the charges being dependent upon the nature and extent of the service. Full information concerning the facilities obtainable and the rates therefor may be obtained upon application to the Telephone Manager.

Charges for Calls—

Subscribers connected to Exchanges in the Perth Metropolitan area may converse with other subscribers in that area for the unit call fee of 1¼d. for each effective call. For this fee metropolitan subscribers may also call subscribers connected to any Exchange outside the network, but within a five-mile radius of the calling Exchange. The rate for a call from a public telephone is 2d. for each 3 minutes or part thereof.

Trunk Lines—See "TRUNK COMMUNICATIONS,"

PAYMENT OF RENTALS AND ACCOUNTS FOR CALLS

As a general rule ground rentals are payable in advance for the first year, and thereafter half-yearly in advance.

Accounts for calls will be rendered half-yearly, and must be paid within 14 days. An interim account may be forwarded at any time, and must be paid upon demand. Failure to pay an account within the time stipulated will result in a subscriber's instrument being disconnected.

Should a subscriber wish to be informed of the

number of local calls recorded against him for any period other than the ordinary accounting period, the information will be furnished on payment of 6d. for each period exceeding one day for which the total number of calls is desired, or 1/- for each statement showing the daily total calls for one month.

Details of trunk line calls may also be obtained upon payment of 1/- for each statement showing calls to the value of £1 or under, and 6d. for each additional £1 or portion thereof.

TRUNK COMMUNICATIONS

Calls to which the unit fee does not apply will be charged for at trunk line rates, viz.:-

Distances up to -	DAY RATE—Between 8 a. m. and 7 p. m.		Distances up to -	NIGHT RATE—Between 7 p. m. and 8 a. m.	
	First Three Minutes	Extra Three Minutes.		First Three Minutes.	Extra Three Minutes.

800 „	5 8	4 3	800 „	2 10	2 2
Over			Over		
800 „	6 4	4 9	800 „	3 2	2 5

The charges are based upon the direct distance between towns, even though the actual length of the circuit used might be greater.

Sundays, Christmas Day and Good Friday.—An increase of 50 per cent. on the ordinary rates is charged for conversations other than press conversations.

Public Telephone.—An additional fee of 1d. is charged for each public telephone at a Post Office used in making a trunk line call.

Particular Person Fee.—A fee of 3d. is charged where a particular person is asked for on a trunk line call. This fee is payable whether the person is available or not.

Messenger Fee.—A fee of 3d. is charged when it is necessary to send out a messenger to call a person to the telephone. This fee is in addition to the "Particular Person" fee.

Calls After Exchange is Closed.—In cases where calls are made after the ordinary office hours, a charge of 1/6 is made for each half-hour during which an official Exchange is opened. A similar fee, not exceeding 1/6, may also be charged by the officer-in-charge of a non-official Exchange.

TIME SIGNALS

On payment of £1 per annum, subscribers to Telephone Exchanges equipped with the necessary apparatus may have the exact time signalled on their telephones at 1 p.m. daily, except on Sundays and holidays.

Subscribers may also obtain the correct time at any time by calling the Exchange. The usual call fee will be charged for this service.

TELEPHONE DIRECTORIES

The Telephone Directories are published in April and October.

Each subscriber is entitled to one free entry for each telephone instrument connecting directly or indirectly with the Exchange. The entry will be inserted in the first available Directory published after the date of his connection with the Exchange, and it will include the Exchange number, name and address, and such description of the subscriber's business as will permit of identification.

Additional entries will be charged for, and are subject to certain restrictions. Details may be obtained from the Telephone Manager.

Persons occupying the same building may jointly subscribe to a telephonic service under the one Exchange number for an additional fee of £1 per annum, which also covers the extra entry in the Directory.

A subscriber may have his surname, profession, or address printed in block capitals on payment of £1/1/- per annum for the first word, 10/- per annum for each additional word and 2/6 per annum for each additional letter, initial or the conjunction "&."

A subscriber is entitled to receive one copy of the appropriate Directory for each telephone instrument rented by him.

Marginally indexed copies of the Perth Directory may be obtained, instead of the usual copies, upon payment of 6d. per copy.

These are obtainable if ordered from the Manager of Telephones prior to 1st February and September.

Extra copies of the Metropolitan Directory may be obtained at the Cashier's Office, General Post Office, or through Postmasters at a charge of 6d. each. **Country and Goldfields Directories** are obtainable at 4d. each.

While every care is taken in compiling the Directory, the Department reserves the right to curtail any entry therein, and it accepts no liability for any omission or error which may occur. No claim for compensation in this respect will be entertained.

Any omission or error in the Directory should be immediately notified in writing to the Telephone Manager, to whom enquiries regarding additional entries should be made.

Owing to alterations in numbers, the use of out-of-date Directories give rise to ineffective calls, and subscribers are urged to see that their Directories are up-to-date. Obsolete copies should be destroyed.

A subscriber who keeps a private list of telephone numbers should check it as soon as he receives the new Directory. No list of subscribers may be printed, published or circulated without authority of the Deputy Postmaster-General.

TELEPHONE NUMBERS

The Postmaster-General reserves the right to disconnect a subscriber's line from one Exchange and connect it to another, and, where necessary, he may also alter the telephone number of any subscriber or the name of

an Exchange. The Postmaster-General is not liable for any loss or inconvenience attributable to a change of telephone numbers whatever may be the cause.

SUBSCRIBERS LEAVING TOWN

If a subscriber anticipates being away for a prolonged period, he may have his telephone disconnected from the Exchange on application, in writing, to the

Telephone Manager. Although this will not affect the subscriber's liability for the rental, it will prevent unauthorised calls.

REMOVALS OF TELEPHONE SERVICES

Removals of telephone services to other locations will be charged for, the charges being dependent on the cost of the work.

A subscriber who wishes to have his service removed

to another address must give at least 14 days' notice in writing to the Telephone Manager. In the case of removals within the same building, 3 days' notice will suffice.

CANCELLATION OF TELEPHONE SERVICES

A subscriber who decides to discontinue his service is required to give at least 1 month's notice in writing.

A subscriber who changes his address and fails to notify the Department within 1 week after leaving his former premises is liable to a penalty of £10.

No one who enters into occupancy of premises where a telephone service is installed is entitled to use the service unless he obtains approval from the Department.

Otherwise, he is liable for all amounts owing for the service at the time he took up occupancy.

The Postmaster-General reserves the right to refuse to provide any new service or transfer any existing service.

A subscriber is not permitted to sell or offer for sale his telephone service. Non-observance of this renders the subscriber liable to a penalty of £10.

INSURANCE OF INSTRUMENTS

Subscribers are responsible for the value of any telephone instrument or other apparatus rented from the Department, which may be destroyed or damaged by

fire or other cause. It is advisable, therefore, to cover the value of the telephone apparatus by insurance.

INSPECTION OF TELEPHONES

Subscribers are warned that no person, except an authorised officer of the Department, is to be allowed to interfere in any way with the telephone apparatus.

Officers whose duties necessitate admission to sub-

scribers' premises are provided with identifying badges, which they will produce on demand. In case of doubt householders should insist upon the production of the badge before admitting the applicant.

COMPLAINTS AND CORRESPONDENCE

Do not make complaints to the telephonist.

Complaints regarding the working of the telephone or the quality of the service should be made by ringing "Complaints," A00.

Correspondence affecting the telephone service should be addressed to the Telephone Manager.

Inquiries concerning applications for new services should be made to the Contract Section, Telephone Branch, General Post Office (A 5234).

INFORMATION

For subscribers' numbers which do not appear in the Directory, call "Information," A 09.

ATTACHMENTS TO TELEPHONES

Telephone instruments are designed to produce the best results, and the use of unauthorised devices is unnecessary and inadvisable.

Attachments for fitting to the telephone should, there-

fore, not be purchased under any circumstances, unless it has been ascertained from the Telephone Manager that the appliance has been approved by the Department.

CONTROL KEYS

A subscriber may prevent the unauthorised use of his telephone service by having the telephone fitted with a control lock, into which a key must be inserted before

a call can be made. The annual rental for the lock is 5/- One key is provided, free of charge, but a fee of 2/6 is payable for each extra key.

TEMPORARY SERVICES

Applications for temporary services should be made to the Telephone Manager, together with full particulars of the facilities required. Full details showing the

conditions under which the service can be provided will be then supplied.

ADVERTISEMENTS.

Correspondence and inquiries regarding Advertisements in this publication, including the Classified Advertising Section at the back of the book, should be addressed to the Advertising Contractors, the Country Publicity Company, 6 Brown's Buildings, Murray Street, Perth, Telephone A2728.

The Classified Advertising Section contains a list of telephone Subscribers who have arranged with the Ad-

vertising Contractors to give special prominence to their activities under the heading of their respective professions or trades. **The list does not necessarily comprise all subscribers following the particular professions or trades.**

The Postmaster-General accepts no responsibility in connection with any advertisement or entry, or for any error or omission therein.

HOW YOU CAN PROMOTE EFFICIENT SERVICE.

By systematic compliance with the suggestions contained in pages 2 to 8.

By realising that the ability of any Telephone Administration to give efficient service to its subscribers depends largely upon the extent of the assistance it receives from them.

By extending to the Exchange officers the same courtesy and consideration that you expect from them.

By informing the Officer-in-Charge by telephone at the time any difficulty is experienced in obtaining a satisfactory service.

Classified Advertising Section.

The Classified Advertising Section contains a list of telephone subscribers who have arranged with the Advertising Contractors to give special prominence to their activities under the heading of their respective professions or trades. The list does not necessarily comprise all subscribers following the particular professions or trades.

The section is published by arrangement with the Postmaster-General who is not responsible for any advertisement or entry, or for the accuracy of the information contained therein.

Correspondence and inquiries should be addressed to the Advertising Contractors, Country Publicity Company, 6 Brown's Buildings, Murray Street, Perth, Telephone A2728.
